

**MICHIGAN SCHOOL READINESS PROGRAM
PIE - PROJECT SUMMARY**

1. The program provides home visits by parent educators trained in child development to help parents understand appropriate expectations for each stage of their child's development, to encourage learning opportunities, and to promote strong parent-child relationships.
2. The program facilitates group meetings of participating families.
3. There is provision for periodic developmental screening of the child's overall development, health, hearing, and vision.
4. The program has identified a community resource network that provides referrals to other state, local, and private agencies as appropriate to assist parents in preparing their children for academic success and to foster the maintenance of stable families.
5. The program connects families to quality preschool programs (this funding may NOT be used to provide preschool programming).
6. The program is a collaborative community effort that includes at least the district or intermediate school district, local multipurpose collaborative bodies, local health and welfare agencies, and private nonprofit agencies involved in programs and services for preschool children and their parents. Evidence of a review and approval by the local multipurpose collaborative body of the program plan is maintained in the fiscal agent or administrative files (available for MDE review upon request).
7. A written plan for the delivery of the program components is maintained in the fiscal agent or district administrative files (available for MDE review upon request).
